

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Order Instituting Rulemaking to Promote
Consistency in Methodology and Input
Assumptions in Commission Applications of
Short-run and Long-run Avoided Costs,
Including Pricing for Qualifying Facilities.

Rulemaking 04-04-025
(Filed April 22, 2004)

**ADMINISTRATIVE LAW JUDGE'S RULING
GRANTING MOTION TO INTERVENE BY CALPINE CORPORATION**

This ruling addresses the June 16, 2004 motion of Calpine Corporation (Calpine) for leave to intervene in this proceeding. This rulemaking serves at the Commission's forum for developing a common methodology, consistent input assumptions and updating procedures for avoided costs. Calpine states that it owns several certified Qualifying Facilities that provide power to an investor-owned utility pursuant to a Commission jurisdictional Standard Offer contract that may be affected by the outcome of this proceeding. For good cause shown, Calpine should be granted intervention.

Therefore, **IT IS RULED** that:

1. The request of Calpine Corporation (Calpine) to intervene is granted.
2. Calpine shall be placed on the service list for this proceeding as an interested party.

Dated June 25, 2004, at San Francisco, California.
